 Self-Applied Material to be applied: _____
 (Only the materials approved below may be applied to County roads)

This permit is subject to the following conditions:

1. This application and payment shall be submitted before May 1st in order to give Van Buren County road crews sufficient time to prepare the road surface.
2. A copy of the application shall be submitted to the contractor applying dust control by the applicant.
3. The area where dust control is to be applied, must be flagged (flags are available from the engineers office at no charge). Flags must be in place not later than May 1st and it is the applicant's responsibility to keep the dust control location flagged until October 1st.
4. Only dust control materials approved by the County Engineer may be used, these include: Calcium Chloride, Magnesium Chloride, Lignin Sulfate, Soy Oil or an approved combination of these products.
5. The applicant is responsible for maintaining a suitable driving surface on the treated section of road. Failure to fill potholes will result in County road crews scarifying or blading the affected area to maintain the safety of the roadway.
6. Beginning October 15th normal blading operations will resume so road crews may prepare roads for winter.
