APPROVED BY:

X

 (Customer or Authorized Agent) Date

 County Engineer/Designee Date

Maximum dimensions and weight allowed on an annual oversize/overweight permit are: length -120', width - 13'5", height - 15'5", weight - 156,000 lbs. Enter actual dimensions if self-propelled oversize/overweight vehicle.

This permit is valid only for travel on county roads in Van Buren County, Iowa. It is not valid for travel on state, U.S., or interstate highways, or on city streets. Separate permits must be obtained from the proper governing authority for travel on these roadways.

Call the Van Buren County Engineers office to get information on your chosen route at 319-293-3663. It is the responsibility of the carrier to route themselves around low clearances, construction projects, embargoed roads and bridges. If carrier demonstrates inability to self route, the permit will be revoked.

Permits can be issued only for transporting single articles that exceed statutory size limits unless the inclusion of additional articles does not cause the size or weight to further exceed the statutory limits.

Annual Oversize/Overweight Permit Application Instructions

SECTION A – Applicant Information

Legal Name: Enter the name of the person or company that the permit will be issued to.

Address/City/State/ZIP: Enter the address of the person or company that the permit will be issued to.

Preferred Permit Delivery Method: Check the appropriate box for how you would like your permit sent to you once issued.

Carrier Type: Check one box. Are you hauling this load for hire or privately?

Requested Start Date: Enter the date you would like the permit to start. Permits are good for one year.

Phone Number: Enter the contact phone number.

Fax Number: Enter the contact fax number.

Contact Name: Enter the name of the person to be contacted with questions regarding this application. Also enter a phone number if different than the one already on the application

Email address: Enter your email contact information.

SECTION B - Power Unit & Trailer information

Plate: Enter the license plate number for the power unit.

State: Enter the 2-digit abbreviation for the state the power unit is registered in.

Vehicle Identification Number (VIN): Enter the VIN for the power unit.

Registered Weight: Enter the registered weight of the power unit. This information can be found on your cab card. Iowa law requires that you be registered for the weight you are hauling.

Year: Enter the year of the power unit.

Make: Enter the make of the power unit (Peterbilt, Mack, International, etc)

SECTION C - Dimensions/Weight

Overall Length: Measure from the front bumper of the power unit to the end of the trailer or load. Enter in feet and inches.

Overall Width: Enter in feet and inches.

Overall Height: Tallest point, either power unit or load. Enter in feet and inches.

Front Projection: Any overhang that extends past the front of the power unit. Enter in feet.

Rear Projection: Any overhang that extends past the rear of the power unit; or trailer if a combination vehicle. Enter in feet.

Overall Gross Weight: Total weight of power unit, trailer, and load combined. Enter in pounds.

SECTION D - Axle weight/spacing

If special mobile equipment with qualifying tires, enter individual axle weights and spacings. If not SME, skip to next section.

Requested Gross Axle Weight: Enter weight for each axle in pounds.

Spacing Between Axles: Enter each individual axle spacing in feet and inches.
